

Alcea Rosea-Hybr. Spotlight Series 'Radiant Rose'

Application for the evaluation of New Introductions 2018

SENDER Person name or Company name *	Jelitto Staudensamen GmbH
Street*	Am Toggraben 3
Postalcode/Town/Country*	D-29690 Schwarmstedt Germany
Email*	info@jelitto.com
Phone/Fax*	+49 5071/9829-0
Genus, Species, Cultivar Name of the plant announced for evaluation *	Alcea Rosea-Hybr. Spotlight Series 'Radiant Rose'
<i>Origin of the cultivar (seedling of..., sport of...,hybrid of...etc.)</i>	Seedling of Alcea within Alcea breeding programm of Jelitto Staudensamen GmbH
Originator / Breeder or Selector*	Georg Uebelhart
Year of origin *	2014
Introducer to the Comercial market* (company name and adress)	Jelitto Staudensamen GmbH Am Toggraben 3 D-29690 Schwarmstedt Germany
Year of introduction *	2014
Does the cultivar enjoy any type of protection rights such as trademark or breeder's rights if yes which one *	not yet
Was the variety apply to award before/ when ?*	no
How different/ which is the most similar existing var. *	Plant habit (size and leaves) similar to existing hybrids of Alcea rosea x A. ficifolia of the Spotlights Series.
<i>Short description of the cultivar leaves, flowers.....</i>	Large, almost orbicular, medium green, showy, slightly lobed and pleated leaves. Long flowering spikes. Alternating flowers, flowering simultaneously.
<i>Way of propagation and the preferable method.</i>	Seeding. Early sowing for first year flowering.
<i>Growth and habit (erect, compact ...)</i>	Upright, erect. Numerous, vigorous basal leaves.

<i>Height(cm): leaves/with flowers</i>	180cm (70in.)
<i>Main flowering time</i>	May-October
<i>How to cultivate - preferable place : soil, humidity, stand (shadow, half shadow , sunny)</i>	Average garden soil, dry to average moisture, well drained, full sun.
<i>Special culture remarks</i>	Overwinter crop with sowing in summer possible.
<i>Flower colour (if possible use the RHS Colour Chart)</i>	Bright, brilliant pink (73A-B).
<i>Size and form of single flower</i>	Disk to funnel-shaped, 8-9cm (3.5in.)
<i>Size and form of complete flowers</i>	Single flower
<i>Description of the leaves</i>	Large, almost orbicular, medium green, showy, slightly lobed and pleated leaves.
<i>General picture or a detailed pictures will be supplied: yes/not</i>	pictures attached

! = compulsory/must complete

Italics = facultative/optional but very common.

Crocosmia 'Orange Pekoe'

Echinacea purpurea 'Green Twister'

Application for the evaluation of New Introductions 2018

SENDER Person name or Company name *	Jelitto Staudensamen GmbH
Street*	Am Toggraben 3
Postalcode/Town/Country*	D-29690 Schwarmstedt Germany
Email*	info@jelitto.com
Phone/Fax*	+49 5071/9829-0
Genus, Species, Cultivar Name of the plant announced for evaluation *	Echinacea purpurea 'Green Twister'
<i>Origin of the cultivar (seedling of..., sport of...,hybrid of...etc.)</i>	Seedling of Echinacea within Echinacea breeding programm of Jelitto Staudensamen GmbH
Originator / Breeder or Selector*	Georg Uebelhart
Year of origin *	2017
Introducer to the Comercial market* (company name and adress)	Jelitto Staudensamen GmbH Am Toggraben 3 D-29690 Schwarmstedt Germany
Year of introduction *	2017
Does the cultivar enjoy any type of protection rights such as trademark or breeder's rights if yes which one *	not yet
Was the variety apply to award before/ when ?*	no
How different/ which is the most similar existing var. *	Plant habit (size and leaves) similar to E. purpurea 'Magnus Superior', flower similar to E. purpurea 'Green Envy'
<i>Short description of the cultivar leaves, flowers.....</i>	Horizontal flower petals, uniform sturdy habit, abundant flowering
<i>Way of propagation and the preferable method.</i>	Seeding. Early sowing for first year flowering.
<i>Growth and habit (erect, compact ...)</i>	Upright, erect, sturdy

<i>Height(cm): leaves/with flowers</i>	First year lower, higher in later years (100cm/ 39in.)
<i>Main flowering time</i>	July-September
<i>How to cultivate - preferable place : soil, humidity, stand (shadow, half shadow , sunny)</i>	Average garden soil, average moisture, full sun
<i>Special culture remarks</i>	Overwinter crop with sowing in summer possible
<i>Flower colour (if possible use the RHS Colour Chart)</i>	Inner petals carmine-red/pink (70B), outer petals lemon green brightened to geenish yellow (145B).
<i>Size and form of single flower</i>	Disk shaped, horizontal petals, 8-9cm (3.5in.)
<i>Size and form of complete flowers</i>	Single flower
<i>Description of the leaves</i>	Elliptic to ovate-shaped
<i>General picture or a detailed pictures will be supplied: yes/not</i>	Pictures attached

Echinacea purpurea 'Green Twister'

Echinacea 'JS Engeltje'

Application for the evaluation of New Introductions 2018

SENDER Person name or Company name *	Jan Spruyt – Spruyt Select GCV
Street*	Mostenveld 30
Postalcode/Town/Country*	B-9255 Buggenhout
Email*	jan@vasteplant.be
Phone/Fax*	0032 52 333 776
Genus, Species, Cultivar Name of the plant announced for evaluation *	Echinacea 'JS Engeltje' PBR
<i>Origin of the cultivar (seedling of..., sport of..., hybrid of...etc.)</i>	Presumed parents: Echinacea pallida and Echinacea purpurea
Originator / Breeder or Selector*	Jan Spruyt
Year of origin *	2013
Introducer to the Comercial market* (company name and adress)	BVBA Jan Spruyt – Van Der Jeugd Mostenveld 30 9255 Buggenhout Belgium
Year of introduction *	Currently (Nov. 2016) not yet for sale
Does the cultivar enjoy any type of protection rights such as trademark or breeder's rights if yes which one *	Yes: JS® is a European Trade Mark Number: 0938598 Valid until May 21st, 2023 We will probably protect it with Plant Breeders' Rights in 2017.
Was the variety apply to award before/ when ?*	No

How different/ which is the most similar existing var. *	Most similar cultivar is ??? We do not know.
<i>Short description of the cultivar leaves, flowers.....</i>	A plant with a wild aspect, beautiful flower heads that are multi-colored.
<i>Way of propagation and the preferable method.</i>	Tissue
<i>Growth and habit (erect, compact ...)</i>	Upright habit.
<i>Height(cm): leaves/with flowers</i>	Leaves: 25cm With flowers: 70cm
<i>Main flowering time</i>	07;08;09
<i>How to cultivate - preferable place : soil, humidity, stand (shadow, half shadow, sunny)</i>	Sieber – code: BR1; OP1B; OP2B; ST2
<i>Special culture remarks</i>	-
<i>Flower colour (if possible use the RHS Colour Chart)</i>	RHS colour group: Red- Purple, 61B
<i>Size and form of single flower</i>	-
<i>Size and form of complete flowers</i>	5-6cm
<i>Description of the leaves</i>	Dark green, elliptical leaves
<i>General picture or a detailed pictures will be supplied: yes/not</i>	Yes

● = compulsory/must complete

Genus, Species, Cultivar Name of the plant announced for evaluation *	Heuchera 'Rex Red'
<i>Origin of the cultivar (seedling of..., sport of..., hybrid of...etc.)</i>	Seedling,
Originator / Breeder or Selector*	Henk Holtmat, AB-Cultivars
Year of origin *	2014
Introducer to the Comercial market* (company name and adress)	2016, Vitroflora Grupa Producentów
Year of introduction *	2016
Does the cultivar enjoy any type of protection rights such as trademark or breeder's rights if yes which one *	yes
Was the variety apply to award before/ when ?*	Yes, 2016 England

How different/ which is the most similar existing var. *	Very strong growing variety, with big leaves.
<i>Short description of the cultivar leaves, flowers.....</i>	Heuchera Rex Red is one of the strongest variety on the market, vary robust and tolerant plant. Strong vigour. A lots of big leaves and stornj stem. Perfect for landscape. Excellent ornamental sterile flowers.
<i>Way of propagation and the preferable method.</i>	Vegetative, in vitro
<i>Growth and habit (erect, compact ...)</i>	Mounding
<i>Height(cm): leaves/with flowers</i>	50 – 70 cm with flowers
<i>Main flowering time</i>	May- June
<i>How to cultivate - preferable place : soil, humidity, stand (shadow, half shadow , sunny)</i>	sun to Part shade, tolerant of average soil, prefers well drianed soil more organic
<i>Special culture remarks</i>	Strong growing plant, need more space.
<i>Flower colour (if possible use the RHS Colour Chart)</i>	white
<i>Size and form of single flower</i>	Bell shape
<i>Size and form of complete flowers</i>	Long, 80cm flower panicle,
<i>Description of the leaves</i>	Brown-Red
<i>General picture or a detailed pictures will be supplied: yes/not</i>	yes

Nepeta grandiflora 'Florina'

Application for the evaluation of New Introductions 2018

SENDER Person name or Company name *	Christian Kress, Sarastro-Stauden
Street*	Ort 131
Postalcode/Town/Country*	4874 Ort/Dunkreis, Austria
Email*	office@sarastro-stauden.com
Phone/Fax*	0664/2610362 0043(7751)84243
Genus, Species, Cultivar Name of the plant announced for evaluation *	Nepeta 'Florina' (N.-grandiflora - Hybrid)
Origin of the cultivar (seedling of..., sport of..., hybrid of...etc.)	Seedling of Nepeta 'Dawn to Dusk'
Originator / Breeder or Selector*	Christian H. Kress
Year of origin *	2011
Introducer to the Comercial market* (company name and adress)	Sarastro-Stauden
Year of introduction *	2013
Does the cultivar enjoy any type of protection rights such as trademark or breeder's rights if yes which one *	no
Was the variety apply to award before/ when ?*	no

How different/ which is the most similar existing var. *	Nepeta 'Dawn to Dusk' better contrast
Short description of the cultivar leaves, flowers.....	light pink-rose flowers with dark red bracts
Way of propagation and the preferable method.	cuttings
Growth and habit (erect, compact ...)	erect
Height(cm): leaves/with flowers	90 cm
Main flowering time	June to August (sept.)
How to cultivate - preferable place : soil, humidity, stand (shadow, half shadow , sunny)	sunny position
Special culture remarks	after cutting back there is another flowering period
Flower colour (if possible use the RHS Colour Chart)	light pink
Size and form of single flower	2 cm
Size and form of complete flowers	15 cm (flower branches)
Description of the leaves	light green
General picture or a detailed pictures will be supplied: yes/not	yes

* = compulsory/must complete

Italics = facultative/optional but very common.

Complete this word document and mail it to us. Handwritten forms shall also be accepted. Please scan your forms and send to the following e-mail-addresses:

Nepeta grandiflora 'Florina'

Nepeta 'Poseidon'

Application for the evaluation of New Introductions 2018

SENDER Person name or Company name *	Christian H. Kress
Street*	Ort 131
Postalcode/Town/Country*	4874 Ort / Dinnbreis, Austria
Email*	office@sarastro-stauden.com
Phone/Fax*	0664 / 261 0362 0043 / 7751 84243
Genus, Species, Cultivar Name of the plant announced for evaluation *	Nepeta 'Poseidon'
Origin of the cultivar (seedling of..., sport of..., hybrid of...etc.)	Hybrid between N. 'Walker's low' and N. latifolia
Originator / Breeder or Selector*	Christian Kress
Year of origin *	2010
Introducer to the Commercial market* (company name and adress)	Sarastro - Stauden 2042 4874 Ort / D. 131
Year of introduction *	2012
Does the cultivar enjoy any type of protection rights such as trademark or breeder's rights if yes which one *	no
Was the variety apply to award before/ when ?*	no

How different/ which is the most similar existing var. *	thicker flower branches, sterile! no difference to any other cultivar!
Short description of the cultivar leaves, flowers.....	greyish leaves, deep inc-blue flowers upright growth, after cutting back a second flowering time
Way of propagation and the preferable method.	only by cuttings
Growth and habit (erect, compact ...)	60cm erect
Height(cm): leaves/with flowers	60cm
Main flowering time	June to September (after cut back)
How to cultivate - preferable place : soil, humidity, stand (shadow, half shadow , sunny)	Sunny position in borders or on dryer positions
Special culture remarks	cut back after flowering
Flower colour (if possible use the RHS Colour Chart)	violet blue
Size and form of single flower	~ 1cm, 25cm long the flower branches
Size and form of complete flowers	
Description of the leaves	greyish, hairy leaves
General picture or a detailed pictures will be supplied: yes/no	yes

* = compulsory/must complete

Italics = facultative/optional but very common.

Complete this word document and mail it to us. Handwritten forms shall also be accepted.

Origanum 'Gentle Breeze'

Application for the evaluation of New Introductions 2018

SENDER Person name or Company name *	Tomasz Michalik, Vitroflora Grupa Producentów.
Street*	Trzęsacz 25
Postalcode/Town/Country*	86-022 Dobrcz
Email*	tmichalik@vitroflora.com.pl
Phone/Fax*	+48502306501
Genus, Species, Cultivar Name of the plant announced for evaluation *	Origanum laevigatum 'Gentle Breeze'
<i>Origin of the cultivar (seedling of..., sport of..., hybrid of...etc.)</i>	Seedling,
Originator / Breeder or Selector*	Rene van Gaalen, Netherland
Year of origin *	
Introducer to the Comercial market* (company name and adress)	2017, Vitroflora Grupa Producentów.
Year of introduction *	2017
Does the cultivar enjoy any type of protection rights such as trademark or breeder's rights if yes which one *	yes
Was the variety apply to award before/ when ?*	no

How different/ which is the most similar existing var. *	Strong multiple stems, danse clusters of pinkich flowers, do not fall apart during season. Comperable to origanum 'Herrenhausen'
<i>Short description of the cultivar leaves, flowers.....</i>	Strong multiple strong stems, danse clusters of pinkich flowers, contrast well with dark calix, Do not fall apart during havy rain or drought. Stay short and compact. Winterhardy.
<i>Way of propagation and the preferable method.</i>	Vegetative,
<i>Growth and habit (erect, compact ...)</i>	Upright, Clumping
<i>Height(cm): leaves/with flowers</i>	30-45cm with flowers
<i>Main flowering time</i>	June - July
<i>How to cultivate - preferable place : soil, humidity, stand (shadow, half shadow , sunny)</i>	Full sun to Part shade, tolerant of average soil, prefers well drianed soil
<i>Special culture remarks</i>	
<i>Flower colour (if possible use the RHS Colour Chart)</i>	
<i>Size and form of single flower</i>	Pink, 5mm in diameter, dark calix
<i>Size and form of complete flowers</i>	Dense panicle
<i>Description of the leaves</i>	Dark green,
<i>General picture or a detailed pictures will be supplied: yes/not</i>	yes

● = compulsory/must complete

Italics = facultative/optional but very common.

Thalictrum 'Tntnp' NIMBUS Pink

Application for the evaluation of New Introductions 2018

SENDER Person name or Company name *	Tomasz Michalik, Vitroflora Grupa Producentów.
Street*	Trzęsacz 25
Postalcode/Town/Country*	86-022 Dobrcz
Email*	tmichalik@vitroflora.com.pl
Phone/Fax*	+48502306501
Genus, Species, Cultivar Name of the plant announced for evaluation *	Thalictrum aquilegifolium NIMBUS™ Pink
<i>Origin of the cultivar (seedling of..., sport of..., hybrid of...etc.)</i>	Seedling,
Originator / Breeder or Selector*	Terranova Nurseries, INC.
Year of origin *	
Introducer to the Comercial market* (company name and adress)	2017, Terranova Nurseries INC.
Year of introduction *	2017
Does the cultivar enjoy any type of protection rights such as trademark or breeder's rights if yes which one *	yes
Was the variety apply to award before/ when ?*	no

How different/ which is the most similar existing var. *	Compared to T. 'Black Stockings', NIMBUS™ Pink has lighter flowers, grayer dark stems, more crowns, more stems, more flowers, and flowers in a flat top mass.
<i>Short description of the cultivar leaves, flowers.....</i>	This perfect match in the NIMBUS™ series has lavender pink flowers in massive puffs at the top of the foliage. The striking dark stems and lovely fern-like green leaves are showy even before the bloom. Great crown count. Blooms the first year, but much better after a winter chill.
<i>Way of propagation and the preferable method.</i>	Vegetative, in vitro
<i>Growth and habit (erect, compact ...)</i>	Upright, Clumping
<i>Height(cm): leaves/with flowers</i>	70-130 cm (with flowers)
<i>Main flowering time</i>	May- June
<i>How to cultivate - preferable place : soil, humidity, stand (shadow, half shadow , sunny)</i>	Full sun to Part shade, Prefers moist, humus rich soils, tolerant of average soil.
<i>Special culture remarks</i>	
<i>Flower colour (if possible use the RHS Colour Chart)</i>	
<i>Size and form of single flower</i>	Light Pink, 1cm in diameter
<i>Size and form of complete flowers</i>	Dense panicle
<i>Description of the leaves</i>	Dark green,
<i>General picture or a detailed pictures will be supplied: yes/not</i>	yes

● = compulsory/must complete

Italics = facultative/optional but very common.
